Pursuant to Section 113 of the Land Title Act

All distances are in metres and decimals thereof.

The intended plot size of this plan is 560mm in width by 432mm in height (C size) when plotted at a scale of 1:600.

Integrated Survey Area No. 39, City of Prince George, NAD83 (CSRS) 4.0.0.BC.1.

Grid bearings are derived from obersvations between geodetic contral monuments 86H1832 and 86H1829.

This plan shows horizontal ground—level distances unless otherwise specified. To compute grid distances, multiply ground—level distances by the average combined factor 0.9995035 which has been derived from geodetic control monument 86H1829 (GCM #391874).

This plan shows one or more witness posts which are not set on the true corner(s).

LEGEND

- denotes control monument found
- denotes standard iron post found
- o denotes standard iron post placed

REM denotes remainder

m2 denotes metres squared

SRW denotes statutory right of way

BLK denotes block
