SCALE:

The intended plot size of this plan is 560mm in width by 432mm in height (C size) when plotted at a scale of 1:500

BOOK OF REFERENCE:

| Description          | Area - Arterial Highway |
|----------------------|-------------------------|
| Rem Lot 3 Plan 15054 | 50.3 m <sup>2</sup>     |

Integrated Survey Area No. 39, Prince George, NAD 83 (CSRS) (2002.0).

The UTM coordinates and estimated horizontal positional accuracy achieved are derived from 7 hours of GNSS dual frequency observations processed using the Precise Point Positioning (PPP) service provided by Natural Resources Canada.

This plan shows horizontal ground-level distances unless otherwise specified. To compute grid distances, multiply ground-level distances by the average combined factor of 0.999481. The average combined factor has been determined based on an ellipsoidal elevation of 769 metres.

Grid bearings are derived from differential carrier phase GNSS observations and are referred to the central meridian of UTM Zone 10 North. To obtain local astronomic bearings referred to the meridian through TH5003, add 0°07'48".

This plan dedicates arterial highway as authorized by the Minister of Transportation and Infrastructure.

This plan lies within the City of Prince George. This plan lies within the Regional District of Fraser-Fort George.

The field survey represented by this plan was completed on the 17th day of June, 2016. Mark Rossmann, BCLS 926
